

Better Compliance in Less Payroll Administrative Cost

RELAXO

Payroll Insights enabled us in attaining better performance with less effort and compliance through automation – Farsight migrated our earlier payroll data in the solution and we are able to generate Form-16, Form-5 etc. directly from the system. Web based Employee Self Service portal (ESS) has also increased the productivity of HR as well as of all employees.

- Senior General Manager – IT
Relaxo Footwear Limited

Challenges

Relaxo Footwear was struggling to bring stronger payroll system within the organization though the administrative efforts were high.

- Policy implementation for attendance & leave management
- High level of efforts in salary processing
- Lack of transparency in payroll process leading to employee dissatisfaction
- Statutory concerns due to manual returns filing
- Higher administrative cost due to higher employee queries, larger manual work

Proposed Solution

Farsight offers Payroll Insight Enterprise Edition to automate entire payroll function which included

- Attendance & leave policy automation with real time attendance capturing
- Implementation of centralized payroll management tool at head office for higher control and better compliances
- Capability of interfacing with SAP for salary accounting
- Employee Self Service portal for transparent salary slip distribution, reimbursements, leave application, & employee information management

“

Seamless payroll process automation and real time attendance data fetch from more than 15 locations for salary processing.

With Employee Self-Service, Relaxo saves cost by avoiding print and distribution of salary slips. ESS also brings better control on absenteeism, yet, higher employee satisfaction through transparent system.

”

Major Benefits

Relaxo Footwear has been reaping various benefits through seamless automation of entire payroll function which includes

- 100% statutory compliances automation
- Accurate & Timely Payroll Processing with company standards & policies
- Real time attendance capturing from more than 15 different plants
- Implementation of same policies across the group
- Transparent and stronger policy implementation with attendance & leave automation across all locations
- Access to real time attendance & leave reports by HR department
- Ready MIS reports for management
- Higher satisfaction level among employees at all levels because of transparent payroll system
- Faster arrear computation with a button of click through increment & arrear process automation
